Appeal to The Global Community

Dear Friends, every human being born, child, man and woman, desire to live a healthy and a happy, prosperous life. Every human being desires to realize spiritual as well as existential goals. Every child wants to feel, and experience love, protection, opportunity. Every adult desires to act, and perform. Every senior citizen anticipate protection as well as caring attitude from the society.

Personal desires of happy, prosperous, long and healthy life from all backgrounds of social fabric, are extended into the social, national desires around the world.

Please accept my appeal on behalf of Polish nation, and apparently, Slavic nations, thorn within by the numerous rogue influences, including corruption, internal conflicts, and the most disturbing, social, economic, systemic colonization (and yet, internal colonization). Poland is in a state of colonized nation. People who live on this land, are denied to navigate freely, and perform according to the norms of a free nation. Slavic lands, countries, nations became a battlefields. In recent history, Yugoslavia, Czech Republic and Slovakia, Ukraine and Russia. Divided, thorn by wars, suffering and even disturbing pattern of diving nation, one family at the time, one community at the time.

Slavic nations became the battlefields, experimental national entities, where wars became a norm at the expense of native people, destroyed properties, and the future of their children. This is a pattern, disturbing in every sense, yet, the most profoundly, a pattern of colonization of nations, including Poland, Slavic people.

Dear friends, your desires are no different from Slavic, your hopes are no different then those of from Slavic, your joy and smile is no different from Slavic, your tears are no different from Slavic, your sense of fairness is no different from Slavic. Yet, Poles, Slavic nations were denied to perform, and even denied the right to exist. In the past, Europe was fragmented by zones of happiness, West vs East, yet, the distinction is an illusion created by mismanaged awareness, and the powerful mechanisms of divisions that seek benefits at the expense of nations.

The status quo of Polish reality is disturbing, and is navigating toward deepening of discrimination. In recent years, Poles, once again, are being pushed away from their land by millions. Natural resources became the subject of severe mismanagement for hundreds of years. Unemployment, lack of opportunities for all, equal pay, systemic profiling, severe decline in birthrate (Poland, 38.5 millions vs 80 millions in Germany similar in size countries), inadequate social protection, to name just a few pathologies.

Dear friends, please help Poles, emotionally, and by fair attitude, to achieve important objectives, the objective of self-preservation in severely fragmented by hundreds of years efforts, society in Poland and Slavic nations. Please reject too far-reaching compromises, and hidden discrimination behind the race with regard to to the ethnic competition. Resources in Poland, and Slavic lands are numerous, yet, distribution of wealth is not, well, adequate, if not disturbing, and apparently not available for everyone in severely profiled nation, profiled by legible and illegible groups for happiness.

Dear Friends, please support the Appeal: ***Sign Your Heart and Mind Under the Appeal for Fair Treatment of Poles and Slavic Nations.*** It can be done within your heart, just by choosing what is right, by attaching humility, and good will to another human being. I ask for nothing more , but the same rights, privileges and obligations, same rights for Poles, and Slavic nations, nations thorn by inequality, profiling and the pattern toward extinction. Same rights for Poles and Slavic nations.

Please Sign Your Heart & Mind Under the Appeal for Fair Treatment of Poles and Slavic Nations.

This is a good choice, proactive attitude, attitude of personal, and social sensitivity.

Please Sign Your Heart and Mind Under the Appeal for Fair Treatment of Poles and Slavic Nations.

Sincerely,
Marek “Mark” J. Wagner
